

Seminar Highlights

PVC-Free Ink – Gen IV

- If it's not PVC-Free, your ink is not “Green”
- Soft-Hand, Opaque, High Yield Production (print through mesh up to 330)
- Odor-Free, Safe for people and the environment
- Pantone© Color-Matching System

Water Resistant Emulsion – Ulano 925WR

- Use with Gen IV or any water base ink
- High Solids Content (41%), Excellent Resolution
- Dyed pale violet; Syrup-based Diazo Sensitizer
- Wide Expose Latitude

Newman Roller Frames & the Roller-Master

- For the Ultimate Forever Frame: Reduce, Reuse & Recycle
- Higher Tension – Softer Hand, Less Ink, Smooth Surface
- Superior Print Quality, Better Registration
- Cost-Effective

Drain-Safe Solutions/Filtration

- One-Step Solution for Water-Base & Plastisol Ink System
- Use a Dip-Tank for Convenience & Chemical Savings
- Use a Drain Filtration System
- Use Ink Degradents before reclaiming to remove ink & to soften stencil
- Use ID-360 as a Non-Hazardous Mild Stain Remover

GEN IV Series PVC-Free Inks

Safety for the Environment & Your People
Introducing a new outstanding line of environmentally friendly products that have been developed for textile printers around the globe.

GEN IV Series Inks Do NOT Contain:
PVC, Phthalates, Orango-Tin Compounds, Restricted Aromatic Amines (Azo), Heavy Metals, PCP, APEO, Poly Chlorinated Biphenyls or Pesticides.

What does this mean for you?

A healthier workplace, a healthier world and the ability to market your products as truly GREEN. Consumers are now demanding more GREEN choices, and many retailers have made the move to offer consumers what they are asking for. With GEN IV, the best part is that you can be GREEN for close to the same price as traditional Plastisol inks and enjoy the same performance attributes!
So join the Green Revolution!

The new eco-friendly GEN IV Series Inks can be printed on:
Knits, Woven Fabrics, With Coarse & Finer Mesh Counts, Flat Photo-Realistic Printing (Direct & Transfer)

Ulano 925 WR Emulsion

Water-based ink needs water resistant stencils and 925WR is the industry standard. 41% solids content makes it dry fast and coat like a dream. It is dyed pale violet. Syrup-based diazo sensitizer. Shares the main characteristics of Ulano's TZ emulsions, but with a higher solids content and even better resolution, edge definition, and exposure latitude. Stencils produced with 925WR/995WR are completely water resistant and very durable. 925WR/995WR comes with a syrup diazo sensitizer, for faster and surer mixing. Recommended for imprinted sportswear applications. PHTHALATE-FREE

Clear versions without dye: 925WR/CL and 995WR are the same as 925WR/995WR, but supplied clear for easier see-through registration.

205-925-4-QT \$31.08/Quart
205-925-1-1G \$57.27/Gallon **Save 10%**

Classic Goop Scoop Scraper

Large plastic scraper with easy-grip handle. Rigid poly design resists breakage. Easy to clean and reuse.

Save 20%
400-206-1-EA
Only \$2.60 each
Limit 50

Hardwood Spatulas

Sturdy wooden spatulas for stirring and mixing ink or emulsion.

Save 20%
400-525-1-PK
Only \$2.20 per Bundle of 10
Limit 10 bundles

Poly-Pro Dip Tank

Don't waste time holding a spray nozzle as you washout screens - Soak Them!

Standard Features:

- All Poly Construction
- Anti-Bulge Support
- Anti-Frame Muck Support
- Poly-Lid with handle
- Screen Support Risers
- Screen Hold-Howl Device
- Hold up to 6 Screens
- Tank: 36" x 27" x 10" ID
- Soak Before Washout
- Soak Before Reclaim
- Drain Spigot

Optional Features:

- Floor Stand
- Air Bubbler
- One-Step Ink
- Stencil Removing Chemicals

Save 20%

Gen IV Sample Kits

For environmental friendliness and ease of cleanup, nothing beats a water-based ink, Plastisol-alternative technology. Its PVC-Free and Phthalate-Free. Free of heavy metals, Phenols, Amines, PCP and other Toxic chemicals.

The Kit Consist of:

- Manual
- Quart of 4601 White
- Quart of 4618 Black
- Quart of 4602 Yellow
- Pint of Reducer

Chemical Resistant Spray Bottle & Head

Our 32oz. bottle and spray head are designed to resist chemicals used at the press and in the screen room.

400-540-1-EA 32oz. Bottle
400-541-1-EA Spray Head
Only \$3.45
Limit 5

Ink Spatulas - Stainless Steel

Stainless steel tempered blade for stiff but flexibility blade with a hardwood handle for easy cleaning. They should last a lifetime. 10" blade is the most popular.

- 400-589-1 4" Blade
- 400-589-2 5" Blade
- 400-590-1 6" Blade
- 400-590-2 8" Blade
- 400-590-3 10" Blade
- 400-590-4 12" Blade

Save 10% Off Limit 2

Newman Roller Frames

MZX Manual & Automatic Textile Frames

Retensionable Frames for the ultimate precision, registration and control. If you have a Tension Meter and Tools, we stock textile frames in the most popular sizes.

We recommend all round rollers for side clamp presses like the Lawson HD-MAX for more stability, easier stretching and even tension. Order frames with a square bar for presses with only rear clamps. For faster and more uniform stretching, try the Newman Roller Master.

355-410-1-EA 18" x 20" ID with Square bar
355-410-6-EA 20" x 28" OD with 4 Rollers
355-411-1-EA 23" x 31" OD with 4 Rollers
