Get The Squeegee Out Of Your Hands

Automate Those Long 1/2-Color Runs with a Simple Swing

The Lawson Mini-Max is a small easy-to-use automatic screen printing press designed to increase profits, dramatically increase production, provide greater print consistency, and minimize the physical stress of manually printing—all while being extremely safe-to-use, simple to set-up, with minimal maintenance. No need to worry about struggling with double stroking heavy white ink when printing on a dark garment. No longer worry about getting a large order or setting up a job for less than a dozen prints.

The Mini-Max Press Series comes in 2 different configurations. Model #14 has a 14" long print stroke and Model #18 has an 18" long print stroke. Enjoy consistent prints without the high cost of skilled printing personnel. The Mini-Max is the answer for both small and large shops.
